An Over-dose of Strychnine Taken by Mistake.

Dr. F. D. Kelley, a prominent Chicago physician and optician, with offices over Weak's store, took an over-dose of strychnine early Friday morning through mistake and it did not prove to be the prompt work of a physician and quick assistance would have died from the effects of the dose.

Sam McMyer was standing on the corner of Lake street and Commercial street when he heard the doctor coming and calling for help, but he thought it was a patient in the doctor's office undergoing an operation. Further cries for help prompted him, however, to make an investigation, and in company with Mr. Hickman and Mr. Huddleston, went to the doctor's office and soon discovered it was the doctor himself. The door of the office was locked and they were forced to break it open and were unable to get the doctor out until he was suffering great agony. Upon an entrance they were told he had taken an over-dose of strychnine and at once summoned Drs. Gourley and Yates, who arrived with their patient until he was pronounced out of danger.

Dr. Kelley's wife was off on a trip and he had been sleeping at his home during her absence. He had been doing considerable night work and was completely broken down and he tried to get something to eat but he knew he had a good day's work before him, he entered Dr. Yates' office adjoining and found a bottle of strychnine tablets. He took one of the tablets and cut it in two and swallowed it. The effects were altogether different from what he expected and he laid down on the couch in his office and was unable to get up again.

Since Dr. Kelley's residence in Fulton he has enjoyed a splendid practice and he and his wife have been much to Fulton's society, they both being highly cultured and very popular young people.—Fulton Leader.

Dr. Kelley is the young physician who located in Hickman this summer and stayed here a short time before moving to Fulton.

Sensation at Fulton.

Miss Nina Milner, a well-known young lady, who resides in this county near Fulton, Thursday swore out a warrant for Rias Dacus, a prominent merchant of Fulton, on a charge of attempted criminal assault, alleging that the latter came to her room in the Usona Hotel in Fulton, Wednesday night enroute home from the West where she had been for her health, and had threatened her until she fled down stairs, screaming for help.

Dacus hurriedly collected a small amount of money and left town at once. Officers who attempted to arrest him at Pierce, Tenn., three miles from Fulton, where held off at the point of a pistol until the man made good his escape. Miss Milner is prominently connected, and her friends and relatives in the county are terribly incensed. Dacus has a very good name, and his present actions are inexplicable. His immediate family refuse to talk of the matter and say they know nothing of his whereabouts.

Miss Milner is an invalid, and is supposed to be in the last stages of consumption.

Will be Hard on all of the Railroads.

In accordance with the announcement that the Southern railway has had the postoffice department to annul the contract providing for a special mail train between Washington and Atlanta, Second Assistant Postmaster General Informed Senator Clay of Georgia that the department would almost immediately penalize all the roads in the south that have been guilty of delaying the mails. The second assistant is aroused over the repeated failure of the railroads in the South to maintain their regular schedule and the consequent delay of mails. It is understood that the post-office department will impose a penalty of 20 per cent against all of the roads that have been guilty of delaying the mails for each offense and if this penalty does not bring about an improvement the amount of the fine will be increased.

The Idleness of the Freight Car.

The recent hearing given to the complaints of the shipping interests of Kentucky, by Commissioners Harlan and Clements, of the Interstate Commerce Commission, at Louisville, while confined to local matters, brought out strikingly the inadequacy of means of transportation in the United States, when the enormous volume of the trade and commerce of the country is considered. To aid in supplying the deficiency, it is the aim of the National Rivers and Harbors Congress of the United States, in United effort, for the improvement of the rivers and the harbors of the United States.

The railways interested in the hearings, through their representatives, gave but little hope for an extension of railway facilities commensurate with the demands of the trade and commerce of the country, and in fact, even to double the present mileage would barely be sufficient.

During the discussions Chairman McChord, of the Kentucky Railway Commission, and who examined the witnesses before Commissioners Clements and Harlan, said:

"The average freight car works only an hour per day. That is, it is idle in sidings, etc., for twenty-three hours out of the twenty-four. The freight locomotive works only sufficiently to haul a freight train fifty miles per day, and thus is almost as idle as the freight car. There is no plausible reason why the car or the engine should remain in idleness when the factory works ten hours per day. If the average could be raised even to one hour and a half per day, it would relieve the congestion on the lines."

The difficulty is that the demands of transportation—and it is quickness and certainty of means of transportation that fixes the true value of a product—are so great that the average can not be raised even the

additional thirty minutes suggested by Commissioner McChord. The true solution of the problem of transportation is in the improvement of the rivers and the harbors of the country.

Cures Cancer and Blood Poison.

If you have blood poisoning producing eruptions, pimples, ulcers, swollen glands, bumps and risings, burnings, itching skin, mucous patches in mouth or throat, falling hair, bone pains, old rheumatism or foul catarrh, take Botanic Blood Balm (B. B. B.). It kills the poison in the blood; soon all sores, eruptions heal, hard swellings subside, aches and pains stop and a perfect cure is made of the worst cases of Blood Poison.

For cancers, tumors, swellings, eating sores, ugly ulcers, persistent pimples of all kinds, take B. B. B. It destroys the cancer poison in the blood, heals cancer of all kinds, cures the worst humors or suppurating swellings. Thousands cured by B. B. B. after all else fails. B. B. B. composed of pure botanic ingredients. Improves the digestion, makes the blood pure and rich, stops the awful itching and all sharp, shooting pains. Thoroughly tested for thirty years. Druggists, \$1 per bottle, with complete directions for home cure. Sample free and prepaid by writing Blood Balm Co., Atlanta, Ga. Describe the trouble and free medical advice also sent in sealed letter.

A Louisiana man having heard of a man who successfully raised a \$2 bill says the Press-Journal, wrote to Congressman Clark for some of the seed.

WHAT'S

worth doing is worth doing well. If you wish to be cured of rheumatism use Ballard's Snow Liniment and you will be "well cured." A positive cure for Sprains, Neuralgia, Bruises, Contracted Muscles and all the ills that flesh is heir to. A. G. M. Williams, Navasota, Texas, writes:

"I have used Snow Liniment for sprained ankle and it gave the best of satisfaction. I always keep it in the house." Sold by Cowgill's Drug Store and Helm & Ellison.

New Island Rises From Ocean.

A volcanic island has just come to the surface from the depths of the Pacific Ocean, writes J. Mayne Baltimore in the November "Technical World Magazine." When we are accustomed to think of geological epochs in terms of thousands of years, and the countries that we know were formed countless ages before historic times, an island which was born within the present year becomes the center of the world's interest. Fishermen came to Dawson City, Yukon, in the early summer, and told of great clouds of steam and smoke around the Aleutian group of islands, and said that the water was seething and boiling for miles around. Later, after the first commotion had ceased and the smoke partially cleared away, an island was discovered in the midst of this tremendous devil's cauldron, and it is now thought that the fateful 18th of last April, when San Francisco was ruined by earthquake, was the birthday of the new island. Recently the U. S. Revenue Cutter Perry was cruising in these waters, and several officers from the boat landed on the island at considerable risk. They found the island to be about 700 feet high and about 900 feet in diameter. They sent in a partial report to the Department of the Treasury at Washington, with the statement that more definite information would be furnished as soon as the land had cooled sufficiently to allow surveying to be done.

Reprint, News-Herald: "There is at least one effective, safe, and reliable Cough Cure—Dr. Shoop's—that we regard as suitable, even for the youngest child. For years, Dr. Shoop bitterly opposed the use of opiates or narcotics in medicine offering \$10. per drop to any one finding Opium, Chloroform, or any other poisonous or narcotic ingredient in Dr. Shoop's Cough Cure. And the challenge is as yet unanswered. Here is one manufacturing physician,

who welcomed with much satisfaction the new Government Pure Food and Drug Law. The public can now protect itself at all times, by insisting on having Dr. Shoop's, when a cough remedy is needed." Sold by All Dealers.

The Country Newspapers.

It occurred to us this week as we ran over our forty or fifty exchanges to note the moral tones of them. These papers are of all sizes and grades, from every variety of towns, and are edited by practical men who are pretty well acquainted with the world, the flesh and the devil. In not one of them did we find a defense of immortality. In but one of them did we find a semblance of defense for whi key. In not one of them was there a trace of vulgarity, and nothing to justify dishonesty. Neither could we find a sneer at purity, at religion, at the better things of life. In many of them were bits of excellent advice, little homely sermons on temperance, frugality and industry. All of them loyal to home town, and advocated honest principles in government and individual. Whenever there was mention of the public school it was in terms of praise. To be sure, here and there was some fun poked at shams, some scorn at pretense. But the note in every one of these two score papers was for decency, progress, enlightenment, morality. Most of them are well read, most of them good judges of people and events. A pretty decent lot they are; in fact, we doubt if any other profession can offer a higher—or even as high a showing. Besides all this, the country editor is proverbially, liberal, free-hearted in every way. No stray printer goes away hungry if he has a quarter. No public subscription list passes him without his mite. He gives freely of time and space to the public welfare. This is not an effort to throw a bouquet at our contemporaries, but with Paul, we believe every man should magnify his calling and we are proud of ours.

Explorers have unearthed the interior of a postoffice that was doing business in Egypt 255 years before Christ. They recognized it by the dead letters.

Give the Northern people time and they will inaugurate a movement to repeal the Fifteenth amendment that will bring results. They will have to obtain their experience just like the Southern people have obtained theirs, through actual contact, and their attitude toward the negro as a political and social quantity will be just what the Southern attitude now is.—Houston Post.

The editor of the Portageville, Mo., Critic an ex-Kentuckian, and endowed with the genuine Kentucky spirit, knowing how true Kentuckyians feel, comments on the co-educational problem, and hands down the following opinion. And we feel sure that his most sanguine hopes will be fulfilled if such a case as he describes should become a question of reality.

In Kentucky there is a school called Berea College, by the terms of the contract made with the people of Berea and the men who endowed it, to be a co-educational school, for the education of the negro and white races. The court of appeals of that state decided that such an institution could not exist, whereupon an appeal was taken to the United States supreme court—by the negroes and their allies, of course. It will be a damning shame on the escutcheon of dear old Kaintuck if a negro and a white child shall ever sit for learning in the same hall and we have such implicit faith in the chivalry of the people of that state that it is our opinion that the lands will overflow with the blood of the negroes sooner than submit to such degradation.

Hickman is the largest shipping point on the Mississippi river between St. Louis and Memphis, Cairo alone excepted. The local shipments of cotton and corn, together with the shipments of corn that is brought to this port by the steamers and transferred, and the local shipments of our manufactures, make an enormous import trade, the magnitude of which cannot be realized without observation.

A professional window dresser would turn green with envy upon viewing the holiday display in the corner window of the dry goods department at Smith & Amberg's department store. The artist, we understand, who is responsible, and deserves credit for, this tasteful piece of work, is Will Helm, the dry goods clerk. Children look at this window with amazing wonder, yet with a child's unmitigated pleasure at the thought of "Old Santa," and not only the children, but it is frequent that we hear ladies and gentlemen complimenting the taste displayed in the arrangement and the original design.

Postmaster Stephens Attends Postmasters' Association.

Postmaster Stephens has been in Louisville this week, and while there attended the Initial meeting of the Association of Kentucky Postmasters of the First, Second and Third class, which was held in the Custom House at that place, Tuesday.

During the day an interesting pre-arranged program was observed, and in the evening dinner at the Seelbach Hotel, the visiting postmasters the guests of the Louisville Postmaster and the heads of the Divisions of the Louisville Postoffice. They witnessed the dispatch of the evening mails at the Custom House, and later in the evening attended the Hopkins Theatre, as guests of Robt. E. Woods, the Louisville postmaster.

Your attention is called to the holiday advertisement of the Naylor Mercantile Co., at Cayce. Those of our readers who reside in that territory will do well to investigate, we feel sure.

Obituary

On Nov. 22nd, 1906 the death angel entered the home of Mr. and Mrs. J. C. Hendrix and claimed their oldest son, Hauly Lester, a young man of twenty years. The death of their son was not unexpected to Mr. and Mrs. Hendrix, as he had been in failing health since his return last April from Quincy, Ill., where he had been attending school. At first it was thought that the careful attention of the family physician and the tender, watchful care of a loving father and mother would restore the young man to health, but as he did not improve his father took him to Colorado in the summer, hoping that the mountain air would be beneficial, but it was of no avail.

Realizing that he had but a short time to spend in this world, and wishing to spend it with those dearest to him, Hauly came home early in November.

On the twenty second surrounded by father, mother, brother, sister and friends, he yielded up his soul to the God who gave it.

The funeral services were conducted at his home by Rev. John R. Williams of Hornsbeck, Tennessee, after which the body was conveyed to Poplar Grove Cemetery followed by a large concourse of friends. The pall bearers were, Gordon Rice, Dave Corum, Guy Hale, Henry Sanger, Clarence Corum, Will Jeffries, Nathan Townsend and Millard Shaw, former school-mates of his.

Hauly was a student at Hickman College some years ago, going from here to G. R. C. College at Henderson, Tenn.

In September 1905, he entered Quincy Ill., Business College, where he remained until April and from which institute he would have graduated in a few weeks, had his health not forced him to come home.

Hauly was a model boy in every sense of the word, he was an obedient son, a loving brother, a true friend and a faithful student. He was patient during his illness, and bore his suffering with fortitude. It is in vain at a time like this, to say to the parents, grieve not. It is natural for you to grieve, but I would say, grieve not as those who have no hope. I would point you to Him who said, "I am the resurrection and the life." You may trust your dear boy to the care of One who loves him with a far tender love

than it is possible for an earthly parent to feel, and you have the sweet thought that when your life is ended here, there is one who will be waiting and watching for you at the Beautiful Gate, and that parting will be no more. A COUNSEL.

THE VICTOR Talking Machine

The most wonderful musical instrument in the world. A piano is a great piece of mechanism, a noble instrument of music, but the wonder attaching to the simple little Victor Talking Machine and record, leaves the piano leagues in the rear, when it comes to human, artistic and mechanical interest. It baffles the reason of the most learned and yet it is as simple as A B C. It is more life like than any piece of mechanism invented.

DON'T confound the Victor with the cheap, scratchy, horrible, impossible machines called talking machines, but come and hear a Victor, yes, **JUST ONCE!** hear it play an orchestra, record, an operatic solo, an old time melody or a minstrel song. Any of these or a score of others. Come just once; throw aside any prejudice you may have to the entire inarticulate brood of sound reproducing nuisances. Come listen to a Victor and if you do not stand in awe for very wonder of such an instrument, if you can be so to account for the sound you hear, the music, the art, the very life of the machine, you will have passed the stage where anything wonderful can appeal to you. Informal Concerts are given at the store now, every day and night. You are welcome, and will let you hear anything you wish.

We are agents for the Victor Machines, and will sell you one on easy terms.

A show troupe traveling down the river in a small boat, got stranded on a bar of Island No. 7, below Hickman, last Thursday, and have been there since. The river has been falling and the boat is now quite a distance from the water. In all probability, they will stay where they are until the Spring rise, as derricks and tug boats are unable to assist them in getting off.

The city council have begun to lay some new walks in town. They are considering the crying need for these improvements and putting the work where most needed. This is something that has been neglected, sadly neglected by the former councilmen for many years heretofore, and we are glad to see that the present administration are looking to the best interests of the town, without favoritism, and expending the money for improvements where it will do the most good. The line of walk now being laid is from the College east on Moscow Avenue.

Cause for Reflection.

Dear Country:

Your cheery face came dispelling the gloom and sadness which has so environed me of late years. One thing I did not like I must protest. If Mrs. Parsons has written a very unwise and foolish letter in favor of trial marriages, surely no reasonable person would think of throwing blame on us much wronged and weaker sex as Lords of creation are pleased to style us. Think of how many pure minded, noble women are trying to rear their children by precept and example in the right way, while some of them have dissipated impure husbands and fathers.

Napoleon said France needed mothers; I say what America needs is both fathers and mothers. It is a sad truth, so many married ladies are trying to lead gay, and fashionable lives while all sensible folks know their proper sphere is in the home; and when they leave the home for fashionable dinners, parties, and clubs, they are bound to neglect home duties and will therefore be held responsible. But who is to blame for all this, they themselves were not taught right. If girls would live gay lives they should not marry. If men will not give up dissipation they should not marry. All honor to the "old maids" who refuse to marry any old way just so they can write "Mrs." They will avoid all that responsibility and blame as well.

Let the father not shift all of the government of the family on the mother's shoulders and think he has done his duty when he provides. She also has other duties and needs his stronger will and aid. We know man's nature is ever to follow the example of father Adam. Yes, Oh, you great men, you too are to blame for existing evils. Teach your children what is right and they will

not throw themselves away by selecting unworthy companions. Counsel them often.

Much labeling said against divorce. I say if a sweet, pure minded woman should make the unfortunate mistake and marry one who makes a beast of himself and she knows he will never be any better let her leave him, the quicker the better. Where is the man that would live with the dissipated woman?

Warning.

I, hereby, direct the City Marshal and his deputies to arrest and bring before the City Court, any person or persons violating the City Ordinance covering the discharge of fireworks within the limits prescribed by said ordinance.

Warning is hereby given that any person or persons guilty of discharging fire-crackers, roman candles, sky rockets or any combustible in the fireworks category, on the main streets of the city or near any store house, factory, cotton depot, warehouse or any other place where there is any danger whatever of creating a fire, will be arrested and fined to the fullest extent of the law.

This warning is given as a preventative to a conflagration that might arise from the discharge of fireworks directed by some unthought person. Parents are requested to have their children abstain from violating this law.

Kitchen Plumbing.

Good plumbing in the kitchen is a matter of great importance because your health depends on the sanitary conditions existing in this room where all food is prepared. Old fashioned sinks with closed-in piping are lodges places for vermin, moisture and dirt which bring about serious illness.

If the plumbing of your kitchen is old, unsightly and unhealthy, let us quote you a price on installing a new white "Standard" Porcelain Enamelled sink with open plumbing. Our prices are reasonable; our work high class and what you pay for this modern kitchen equipment may save you money in doctor bills.

TO HUSBANDS.

Always complain of being tired, and remember that nobody else gets tired.

Your wife should have everything in readiness for you, but you should not do anything for her.

When your wife asks for money give her a nickel; ask her what she wants with it, and when she tells you ask her if she can't do without it. Then go down town and spend ten times the amount for cigars, for they are a necessity.

Go down town for an evening, stand around on the street corners and talk politics; it's more interesting than to stay at home with your family.

Charge your wife not to gossip, but you can spin all the yarns you wish.

Have your wife get up and make the fires, but don't you get up yourself until the rest of the family are eating breakfast, as you might take cold.

Wear old clothes and make yourself as untidy as possible, until your wife's health begins to fail; then it would be best for you to fix up some for in all probability you will want another when she is gone.

Have a smile for everybody you meet, but get a frown on before you go home.

Don't be ashamed or afraid to say kind things. There are some people who look as though they had been caught stealing sheep after they give way to impulse to be pleasant. Kindness is not a weakness. There is no danger of overproduction along this line. There is a market for all the bright looks and good wholesome pleasantries that can be turned out. People go to bed every night hungry for a gentle touch or a helpful word. Men and women are laid at rest in the cemetery every day who would a thousand times rather have had a few thoughtful tokens of good will when alive than all the flowers that have been heaped upon their casket. Hand out kindness and see the joy it will bring you, as well as those at the other end of the transaction. "Pleasant words are as honey-comb, sweet to the soul and health to the bones." Get away from the idea that pleasant words should be thrown out, like a bone to a dog. Carry a full basket and be generous. It will beat the widow's crust and flour barrel at spontaneous reproduction.

At this season of the year when wedding bells are sounding in the air and young husbands and brides are preparing for housekeeping, our kindest thoughts turn to them. A happy home is a crying need for everyone. The world may abuse and wrong you but if you have a home where virtue, peace and plenty reign, you can defy the world. Let it rage and howl abroad as it may; in the sunny home circle you can sing "Let the Storms Come Down." This delightful anchorage must be of your own construction. Other people can erect guide posts showing the road that leads that way, but you yourselves must travel the road and furnish equipments for the journey. Work is the great avenue all must take. Look around and see if you can find any substantial, contented household but somebody is pegging away and striking hardicks to make it so. Idleness produces mischief and crime in man, and ill health and bad temper in woman. We cannot think of any feature of the home life so likely to wreck it as a lazy, ne'er do well man moving around, or a nervous, idle, fretful woman on the lookout for something to make her unhappy. This sort of people can never be contented unless they are miserable, and they should be yoked together to save spoiling so many homes. It takes two to complete a home and either of the above mentioned will insure sorrow and trouble in any family where their lot is cast.

Many a discouraged mother folds her tired hands at night and feels, as if she had, after all, done nothing although she has not spent an idle moment since she arose. Is it nothing that her little helpless children have had someone to save them from harm, and to listen to their little childish griefs and joys; that her husband feels "safe" when he is away at his work, because her careful hand directs everything at home and makes it a safe refuge and place of rest for him when his days labors and perplexities are over? Weary and faithful mother, be encouraged when you know you have done what you could.

It every woman was as careful to select a husband to match her disposition as she is in selecting a dress to match her complexion, there would be fewer unhappy marriages than there are.

The one subject that never grows tiresome, the star which is never dimmed, the song which never loses its sweetness, is sung of home. The subject is immortal. Home, emblematic of rest, retirement, peace and love. All sacred relations of life resolve about the center there. Home is where life's highest objects ought to be studied and acted. Our homes may be poverty, but if we try aright our souls may rise in shadow and sunshine, brightened and softened into beauty, which others may discern. Those who would make home happy must remember to fulfill its noblest functions—peace must reign supreme in the hearts of its occupants.

Let us try to make our homes attractive and pleasant. Like the sunshine that each year sheds its strengthening rays on the tender flowers, nursing them to life and beauty, that peers through the half curtained windows, that tints the evening clouds with golden glory, so let the sunshine of pleasant words and loving smiles shed its lasting influences on the young hearts around us, and we will do much towards keeping their feet from the tempter's snare and directing their thro'ts to that home in the Beautiful Land. If our home is humble we can make it a happy one. Cultivate the beautiful flowers that God has given us, endeavoring to do with our might whatever we do, and making all around us bright and cheerful, thus we will cause our children, in the evening of life, to carry around their brow a glorious halo of memories of a happy childhood home.

Woman achieves her greatest triumphs when she fulfills the will of her Creator. She was created to be the helpmate, not the rival of man. They are to work as one, neither striving to take the position which belongs to the other. Woman is to be the queen in the quiet and peaceful domain of home. Yet the fact that she is at home does not mean that she has no influence on the progress of the world outside the home. The ideal that is formed at our mother's home is the highest we will form in all our lives.

Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of dyspepsia, heartburn, and indigestion as real diseases, yet they are created only of a certain specific nerve sickness—nothing else. It was this fact that first caused me to buy Dr. Shoop's Restorative. Being drawn to the stomach, nerves, alone brought that nerve and liver to the Shoop's Restorative. While out that original and highly vital principle, on each bottle of medicine, was written to be had. For stomach distress, bloating, biliousness, head and nerve complaints, try Dr. Shoop's Restorative—Tastes or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

Great Comet Due in 1910.

The most famous of all comets, though not the largest and most brilliant, will again be visible in 1910. This is Halley's comet, so called from its identification by the great astronomer who was the friend of Sir Isaac Newton. Halley's investigations of astronomical records led him to assert that the comet which he had observed in 1682 had appeared in 1531 and in 1607, and to predict its reappearance in 1759. The fulfillment of this prophecy excited the most intense scientific interest and established beyond doubt the periodicity of comets and their movement in orbits determined by the law of gravitation. Its last appearance was in 1835, its period varying between seventy-six years on account of the perturbing attractions of Jupiter and Saturn in certain parts of its orbit. It was by that time possible to calculate its movements with so much greater accuracy than before, that it made its perihelion passage within four days of the predicted date. It was not then a very grand object to the naked eye, but the light of its nucleus surpassed that of second-magnitude stars, and was comparable with that of some reddish stars of the first magnitude, such as Aldebaran and Antares. Its tail, while the comet was approaching the sun, attained to a length of twenty degrees.

As a Last Extreme.

Once a number of legal lights in Washington were gathered in the smoking room of a lawyers' club when the talk turned to a discussion of the veracity of lawyers.

"The average man," remarked one disciple of Blackstone, "seems only too ready to assume we are all liars—a very unjust position, it seems to me. Do we not sometimes tell the truth?" he asked of his neighbor a well known criminal lawyer. "Certainly," promptly responded the latter. "We will do anything sometimes to win a case."

THE A. S. OF E. COLUMN

(JAMES H. SAUNDERS)

The Unions of Fulton County meet
as follows: Hickman 1st and 3rd
Thursday nights, Simmons 2nd and
4th Tuesday 3 p. m., Montgomery
2nd and 4th Wednesday 3 p. m.
Cayce 1st and 3d Saturday 3 p. m.
the nucleus at Hazel Den, meets 1st
and 3d Wednesday at 3 p. m.
Every one is cordially invited to at-
tend these meetings.

By the time this reaches our
readers I hope every one who con-
tributed anything to our barbecue
will have received his money if he
wanted it. Some very generously
gave their money to the county
union, but others desired that their
part should be returned. We made
many efforts to get all the parties
papers and claims together before
we succeeded. But all this time the
money was secure in the Farmers'
and Merchants' Bank under the
watch-care of our cautious treasurer
Geo. B. Threlkeld. Notwithstand-
ing all his efforts to pay off all just
claims one was not presented until
the first day of December. How-
ever, we hope all just claims are now
paid, and we found that the con-
tributors were entitled to seventy-
five cents on the dollar of their con-
tributions. Some thought that we
would have trouble in finding the
contributors and returning the money
to them. But this is a mistake. When
the adjustment was made the treas-
urer had only five persons to settle
with. We received our part Wed-
nesday morning and by sundown we
had paid every man that signed our
paper his part. I think every one
could find his settlement easy to
make, for each member of the com-
mittee would naturally ask contri-
butions of his neighbors and friends
or the members of his local union.

This is a fine representation of
the working of the A. S. of E. when our
organization is complete which ought
to be by the end of 1907. Each
member will report to the Secretary
of his union just how many bushels
of wheat, corn, oats, rye, apples,
potatoes and etc he will have ready
for market in five or ten days. The
local secretary will report to the
county secretary, the county secre-
tary to the division secretary, and if
necessary the division secretary will
report to the national secretary. If
we are properly organized the
great mass of the farmers will hold
these products until we get word
from head quarters where they are
needed and who will pay the mini-
mum price for them. Some one says
that this will take an army of re-
porters, but he is badly mistaken.

Suppose each union has fifty mem-
bers and each county fifty unions.
How easy it will be for fifty farmers
to meet at the county union and re-
port to the local secretary his pro-
ducts. About fifty counties in this
state will be interested in the same
kind of products, so not more than
fifty county secretaries will report
the same day. This is not half so
complicated as any of our railroad
and telegraph systems. In the same
way the labor union are already co-
operating with the farmers division
head quarters and report the demand.
So you see he has the supply and
demand reports both in his office.
The price is already set and pub-
lished to the world. Don't you see
how much better this is than our
present system in which we are con-
stantly dumping our products on a
glutted market while other places
are famishing and starving for the
very things we are losing? All we
need is self confidence, honest and
capable leaders who have faith in
the work and are ready and willing
to devote their time to the cause.

The old year is almost gone. It
will soon be time to elect officers for
the new year. Let us all meet, pay
up our dues, select our best men for
delegates and let them select the
best men for county, state and national
positions. By this means we must
succeed.

Have you read the president's
message to Congress? Did you ob-
serve that he recommends closer re-
lations between the agricultural and
industrial classes and organization
for the benefit of the farmer whose

welfare is of vital interest? Our
teachers, our papers, our best states-
men and even the president of the
United States is beginning to see
that the farmers must organize.
Did you notice the recommendations
in regard to children? Con-
gress is asked to stop so much child
labor, and railroads will be asked to
stop carrying articles manufactured
by child labor. Can farmers' chil-
dren have any legislation for their
benefit?

Facts And Fiction

Nightmares are evidently in the
dark-horse class.

Of two evils choose neither: both
will come home to roost.

Some people wish you well out-
wardly and otherwise inwardly.

It's a wise boy who knows enough
to laugh at his father's jokes.

It is well to investigate an old
well that won't bear looking into.

Distance lends enchantment to the
view of a friend who is always in
need.

Some men are as anxious to get
into the limelight as others are to
dodge it.

Many a so-called charitable man
draws the line when it comes to buy-
ing his wife new clothes.

A woman seldom listens to a man's
explanation, yet it makes her angry
if he refuses to offer one.

An Ohio man recently made a
strenuous effort to drown his sorrow
by pushing his mother-in-law into the
river.

If a girl can pass the thirtieth
anniversary of her birth without be-
ing detected she begins to look upon
the family record as ancient history.

Intelligence is a virtue men will
claim even if they do have very
little of it.

Most women wish to be beautiful,
regardless of whether they have
stage aspirations or not.

The world never feels very kindly
toward the man who is always prod-

ding it about its sins.

A man's character is often best
learned by a study of the men and
the places he keeps avoiding.

You can never rightly judge of a
man's christianity by the amount of
pew rent that he pays.

The bravest hearts are those that
hope, and keep believing that their
hopes are to be realized.

Men generally find little trouble
in getting up interest in the things
they ought not to investigate.

Foolishness is often nothing but a
brand of wisdom that the majority of
people fail to appreciate.

Before you believe what a man
tells you it is a good thing to find out
if he believes in it himself.

Liberalism is the recognition that
you probably haven't "cornered"
all the truth there is in the world.

Progress is the result of men being
brave enough to go ahead, regard-
less of what the world may say about
it.

There is generally just about as
much room for missionary work at
home as there is for proverbial
charity.

What Cotton Takes From Earth.

An ordinary crop of cotton takes
from the soil, in one acre of ground,
more than 26 pounds of chemical
salts. There is withdrawn from the
earth nearly nine pounds of phos-
phoric acid, more than nine pounds
of potash, more than a pound of
sulphuric acid, nearly two pounds of
lime, and over three pounds of mag-
nesia, besides other salts.

TIT BITS AND GLEANINGS

The average woman becomes dis-
gusted when she finds a man whose
feet are as slender as her own.

Cultivate initiative. The times are
ripe for the strong, the original man.
Be yourself—do not imitate.

Fried oysters and quail season is
on in full and the annual domestic
trouble begins with the dyspeptic.

If Eve was like the average "rom-
an Adam had to raise a row if he
got more than the core of that
celebrated apple.

It is said tears improve the eye-
sight. The result will be sad to con-
template when the fact becomes
generally known.

The new way is not always the
better one after all. Machine made
pies don't compare with those mother
used to make.

If you want to test the nerve of the
bully smack him right hard on the
cheek and see how quick he will show
the yellow.

The smooth nickel is said to be
legal tender but you'd have to argue
a long time to convince some street
car conductors that it is.

Just for the seeking can there be
found a big bunch of sweetness in
life but there's a chance that the
other fellow will beat you to it.

The New York "400" crowd
handles marriage on the department
store plan: If you don't like your
"purchase," you can exchange it.
See?

Not satisfied with sticking the har-
poon into the rest of us, the railroads
are now encroaching on the rights of
the only heretofore really free class
of American citizens by building a
new style of box car with no hanging
brake beams. This is truly the
limit.

"The way to keep cool in bed"
remarks an exchange, "is to go to bed
with a calm and placid mind." That
would be easy if the grocery bills
and rent were not due.

To have beautiful, perfect, pink
velvet-like lips, apply at bedtime a
light coating of Dr. Shoop's Green
Salve. Then, next morning, notice
carefully the effect. Dry, cracked,
or colorless lips mean feverishness,
and are as well ill appearing. Dr.
Shoop's Green Salve is a soft, creamy
healing ointment, that will quickly
correct any skin blemish or ailment.

According to the American Manu-
facturer, the coal deposits of North
America are estimated to contain
nearly as much as those of Europe,
or 681,000,000,000 tons, but even
this gigantic figure is completely
dwarfed by Asia's wealth of coal, as
to which it is at present impossible
to make an even approximate esti-
mate.

Indigestion

Stomach trouble is but a symptom of, and not
the cause of, a true disease. No kind of Indigestion,
Heartburn, and Indigestion as such diseases, for
they are symptoms only of a certain specific
Nerve sickness—indigestion.
It was this fact that first correctly led Dr. Shoop
to the stomach nerve, also brought that nerve
and hence to Dr. Shoop and his Restorative. With-
out that original and basic vital principle, no
amount of laxatives, cathartics, or other drugs, lead-
ing to nervous exhaustion, can ever cure indigestion,
heartburn, and indigestion. Try Dr. Shoop's
Restorative—Tastes of Lemon—and you will know
what it can and will do. We sell and cheer-
fully recommend.

Dr. Shoop's Restorative (ALL DEALERS)

Suit for Fifteen Cents.

A special from Dresden says that
an unusual case was heard in circuit
court there, involving only fifteen
cents. It appears that Hugh Robert-
son, a justice of the peace of the
Fifth District, issued a civil warrant
against J. T. Burton of the same
county, for a man named Evans who
wanted to collect a debt from Bur-
ton.

When the warrant was issued he
placed the style of the case upon
his docket, and to whom the warrant
was issued. When the officer col-
lected the debt and costs he col-
lected 15c for the justice for docketing
the case. Burton demanded it back
and Robert refused to pay it, and
he brought suit for it. The case
was tried before a justice of the
peace and held that the 15c was al-
lowable cost and taxed Burton with
the costs. Burton appealed to the
circuit court and upon a hearing of
the case, Judge Madden held that
Robert was not entitled to the 15c
and reversed the decision of the jus-
tice of the peace and taxed Robert
with the costs. Robert's
prayer an appeal to the Supreme
court and if the case is taken up it
will be the first of its kind ever in
the supreme court from that county.

Mrs. Will Marshall was in Luzelle
yesterday.

Mr. A. L. Badger killed a nice
lot of hogs today.

Luck to the Courier, may it con-
tinue to have success.

Mr. J. H. Barber made a business
trip to Cairo last week.

We are sorry to report that Mr.
Bradley's infant boy is seriously ill.

Mrs. Girtle Brown is quite sick
and has been for two or three weeks.

L. W. Perry is quite sick. Grover
is clerking in the store while his
father is sick.

Tom Fuller is about through
gathering his crop, beating all of us
alike. Hurrah for Tom.

Mrs. R. L. Perry, wife of W. G.
Perry, is quite sick this week. Dr.
Curlin is the attending physician.

A large portion of the cotton is
still in the field yet; hands are
scarce and hard to get. Cotton
picking is 75c per hundred.

Mr. Coop Bradshaw was in our
town yesterday to sell some nice
hogs to W. G. Perry, our enterpris-
ing merchant, the place to buy goods
and sell hogs.

Mrs. Stowe and daughter, Shelley,
have been dangerously sick for a
long time, but we are glad to report
them better at this time, although
they are very low yet.

The weather is fine at this writing
but by the time this is printed it may
not be, I cannot tell. But the
farmers are very busy gathering
corn and picking cotton.

Mr. and Mrs. J. D. Leech are
back at their old home in the bottom,
this week attending to the collection
of his rents and other business
interests. We are glad to have Mrs.
Leech visit here again, she is a
friend to the sick and distressed.
What better mission can any one fill
on this earth?

Searing in a recent issue of the
Courier a few words in favor of good
roads from Luzelle to Hickman, it
makes me feel like coming back
again to the friendship of the farmer,
as I take the staff of the Courier to
be. When the Courier says we need
better roads that is only a feel-
ing to express our need of better
roads, as all good farmers hereabouts
will testify. We wish all the good
friends of the farmers' interests
would join in with us and help us
to get a system started here for better
highways. We have none at all.

CHILDREN'S

favorite tonic is White's Cream Ver-
mifuge, the cure for worms and all
children's diseases. It not only kills
the worms, but removes the mucus
and slime in which they build their
nests. Its action on the child is
mild and leaves him in a healthy
condition. Joe Daniel, Sarmac,
Tenn., writes: "He gave one of his
children White's Cream Vermifuge
when the doctor thought it had colic,
and from the first dose the child
was free of worms. Sold by Cow-
ling's Drug Store and Helm & El-
